Re: Winter 2027: AI Developer Co-op (8 months)

Dear Hiring Team,

I am writing to apply for the Winter 2027: AI Developer Co-op (8 months) position at CGI. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the 8-month term as a chance to make a real contribution to one of Canada's largest IT consultancies.

As Co-Founder of InferenceSaver, I've built and operated an AI API gateway and multimodal generation platform serving 129 registered users and processing \$5.6K+, including model integration, API design, and diagnosing a Stripe webhook idempotency defect.

My internship with the City of Merritt further developed my enterprise IT fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my applied AI experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
