## Summary

Third-year Computing Science co-op student combining enterprise IT systems analysis with hands-on software delivery: requirements gathering, API documentation, workflow design, and stakeholder communication. Seeking CIBC's Winter 2027 Business Systems Analyst Co-op.

## Education

**Thompson Rivers University** Kamloops, BC

*Bachelor of Computing Science (Co-op Program)* *2023 – Present*

- Third-year student focused on software engineering, information systems, and computer networks
- Relevant coursework: Computer Networks, Operating Systems, Web-Based Information Systems

## Experience

**Systems Analyst Intern** June 2026 – Present

*City of Merritt* *Merritt, BC*

- Managed **163 assigned IT tickets**, with **135 completed**, spanning Windows troubleshooting, application support, access management and hardware
- Handled **87 onboarding/offboarding-related tickets** covering employee accounts, permissions and equipment provisioning and collection
- Developed a **CityWide REST API runbook** through curl and PowerShell testing, documenting authentication, API constraints and onboarding/offboarding workflows

**Co-Founder & Technical Lead** March 2026 – Present

*BecomeAfish* *Next.js, TypeScript, PostgreSQL, Stripe*

- Built and launched a booking and payments platform supporting **108 registered accounts** and **133 scheduled lessons**, processing nearly **CAD $5K within about two months** of commercial operation
- Engineered geographic instructor matching, role-based portals, and Stripe webhooks; automated **8 workflows** covering payroll batching, reconciliation, and notifications
- Built campaign attribution, AI-assisted blog/newsletter automation, social publishing integrations, and technical SEO tooling; implemented analytics tracking **4,967 pageviews over 61 days**

**Co-Founder & Software Engineer** July 2025 – Present

*InferenceSaver* *Next.js, React, TypeScript, Convex, Stripe*

- Co-founded and developed a production **AI API gateway and multimodal generation platform** providing unified access to language, image, video, music, and voice models for **129 registered users**
- Built product interfaces, backend workflows, authentication, payments, affiliate systems, and model integrations supporting **$5.6K+ in confirmed platform credit allocations across 60 top-ups**

## Projects

**Generic Alternatives** GitHub | Live

*Full-Stack Developer* *TypeScript, React, Node.js, PostgreSQL*

- Implemented background automation for ingestion, logistics tasks, and operational analysis
- Built supplier-matching and procurement workflows backed by structured data processing

**RentSpace** Live

*Full-Stack Developer* *Next.js, TypeScript, Supabase, PostGIS*

- Built a rental platform with geospatial property search, real-time landlord-tenant messaging, and secure onboarding workflows
- Integrated AI-assisted tenant screening and synchronized listing data through backend workflows

## Technical Skills

**Languages:** TypeScript, JavaScript, Python, Java, SQL, Rust, PowerShell, HTML/CSS
**Frameworks:** Next.js, React, Node.js, Prisma
**Backend & Data:** Convex, PostgreSQL, Supabase, REST APIs, Webhooks, OAuth, RBAC, Session Authentication
**Cloud & Development:** Vercel, Git, GitHub, Docker, Linux, CI/CD, Automated Testing, Scheduled Jobs
**Platforms & Integrations:** Stripe, Resend, Twilio, Google APIs, Meta Graph API, GA4
**IT Systems:** Windows Administration, Microsoft 365, SmartDeploy, BitLocker, Device Deployment, Identity & Access Management
