Hiring Team
EQ Bank (Commercial Lending AI)
Toronto, ON

Re: Commercial Lending AI Engineer Intern (Winter 2027)

Dear Hiring Team,

I am writing to apply for the Commercial Lending AI Engineer Intern position at EQ Bank. The role's combination of REST APIs, workflow automation, LLM integrations, agents, and digital payment capabilities directly matches the production systems I have been building.

At InferenceSaver, I co-founded a production AI API gateway spanning language, image, video, music, and voice models for 129 users. I built model integrations, authentication, billing, and backend workflows and fixed an idempotency defect by implementing retry-safe payment writes.

At BecomeAfish, I built a PostgreSQL-backed platform with Stripe webhooks and automated eight workflows across reconciliation, payroll, and notifications. These experiences taught me to balance rapid delivery with security, reuse, observability, and financial correctness.

I would welcome the opportunity to contribute hands-on AI and integration experience to EQ Bank's Commercial Lending Technology team. Thank you for considering my application.

Sincerely,

Mandeep Singh
