SUMMARY

Third-year Computing Science co-op student with professional experience in municipal IT and hands-on ownership of production software platforms. Skilled in full-stack development, backend systems, API integrations, automation, and technical troubleshooting. Seeking a Winter 2027 Software Engineering Internship at Rivian and Volkswagen Group Technologies to apply strong software fundamentals to vehicle software systems.

EDUCATION

Thompson Rivers University

Kamloops, BC

Bachelor of Computing Science (Co-op Program)

2023 – Present

– **Expected Graduation: Fall 2028**

– Third-year student focused on software engineering, information systems, and computer networks

– Relevant coursework: Computer Networks, Operating Systems, Web-Based Information Systems

EXPERIENCE

Co-Founder & Software Engineer

July 2025 – Present

InferenceSaver

Next.js, React, TypeScript, Convex, Stripe

– Co-founded and developed a production **AI API gateway and multimodal generation platform** providing unified access to language, image, video, music, and voice models for **129 registered users**

– Built product interfaces, backend workflows, authentication, payments, affiliate systems, and model integrations supporting **\$5.6K+ in confirmed platform credit allocations across 60 top-ups**

– Diagnosed a Stripe idempotency defect affecting **8 of 14 completed checkouts**, implemented retry-safe payment writes, and restored music and voice integrations used for **88 production generation jobs**

Co-Founder & Technical Lead

March 2026 – Present

BecomeAfish

Next.js, TypeScript, PostgreSQL, Stripe

– Built and launched a booking and payments platform supporting **108 registered accounts** and **133 scheduled lessons**, processing nearly **CAD \$5K within approximately two months** of commercial operation

– Engineered geographic instructor matching, role-based portals, and Stripe webhooks; automated **eight workflows** covering payroll batching, reconciliation, and notifications

– Built campaign attribution, AI-assisted blog/newsletter automation, social publishing integrations, and technical SEO tooling; implemented analytics tracking **4,967 pageviews over 61 days**

Systems Analyst Intern

June 2026 – Present

City of Merritt

Merritt, BC

– Managed **163 assigned IT tickets**, with **135 completed**, spanning Windows troubleshooting, application support, access management and hardware

– Handled **87 onboarding/offboarding-related tickets** covering employee accounts, permissions and equipment provisioning and collection

– Developed a **CityWide REST API runbook** through curl and PowerShell testing, documenting authentication, API constraints and onboarding/offboarding workflows

PROJECTS

AgentMemory

28,275 Stars / 2,454 Forks – GitHub

Open Source Contributor

github.com/rohitg00/agentmemory

– Contributor since day one on **AgentMemory**, a persistent memory layer for AI coding agents (Claude, Cursor, Copilot, Codex) ranked **#1** on real-world memory benchmarks

– Project has grown to **28,275+ GitHub stars** and **2,454 forks**; contributed through its early growth as an active TypeScript codebase contributor

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, Rust, PowerShell, HTML/CSS

Frameworks: Next.js, React, Node.js, Prisma

Backend & Data: Convex, PostgreSQL, Supabase, REST APIs, Webhooks, OAuth, RBAC, Session Authentication

Cloud & Development: Vercel, Git, GitHub, Docker, Linux, CI/CD, Automated Testing, Scheduled Jobs

Platforms & Integrations: Stripe, Resend, Twilio, Google APIs, Meta Graph API, GA4

IT Systems: Windows Administration, Microsoft 365, SmartDeploy, BitLocker, Device Deployment, Identity & Access Management
