Calgary, AB

Re: Information Systems Summer Student

Dear Hiring Team,

I am writing to apply for the Information Systems Summer Student position at ARC Resources. As a third-year Computing Science co-op student at Thompson Rivers University, I bring direct, hands-on experience supporting enterprise IT systems, and I am excited by the opportunity to contribute to ARC's information systems team.

As Systems Analyst Intern with the City of Merritt, I managed 163 assigned IT tickets, with 135 completed, spanning Windows troubleshooting, application support, access management, and hardware. I handled 87 onboarding/offboarding-related tickets covering employee accounts, permissions, and equipment provisioning, and developed a full CityWide REST API runbook through hands-on curl and PowerShell testing — experience directly aligned with enterprise information systems work.

Alongside this, I have built and operated full-stack production software as Co-Founder of BecomeAfish and InferenceSaver, giving me a well-rounded technical skill set spanning both operational IT support and software development.

I would welcome the opportunity to discuss how my background can contribute to your team this summer.

Thank you for considering my application.

Sincerely,

Mandeep Singh
