Re: IT Helpdesk Intern (8-month Co-op)

Dear Hiring Team,

I am writing to apply for the IT Helpdesk Intern (8-month Co-op) position at AbCellera. As a third-year Computing Science co-op student at Thompson Rivers University, I bring direct, hands-on experience supporting a real organization's IT needs, and I'm excited by the chance to bring that experience to a company doing such impactful work in antibody discovery.

As Systems Analyst Intern with the City of Merritt, I managed 163 assigned IT tickets, with 135 completed, spanning Windows troubleshooting, application support, access management, and hardware. I handled 87 onboarding/offboarding-related tickets covering employee accounts, permissions, and equipment provisioning and collection, and developed a full CityWide REST API runbook through hands-on curl and PowerShell testing.

Alongside this operational IT experience, I've also built and operated full-stack production software as Co-Founder of BecomeAfish and InferenceSaver, giving me a well-rounded technical skill set that spans both hands-on IT support and software engineering.

I would welcome the opportunity to discuss how my background can contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
