Hiring Team
FortisBC
Kelowna, BC

Re: Information Systems Co-op

Dear Hiring Team,

I am writing to apply for the Information Systems Co-op position at FortisBC in Kelowna. As a third-year Computing Science co-op student at Thompson Rivers University, I bring direct, hands-on experience providing first-level technical support and managing computing equipment for a real organization, and I'm excited by the opportunity to bring that experience to FortisBC's IS team.

As Systems Analyst Intern with the City of Merritt, I managed 163 assigned IT tickets, with 135 completed, spanning Windows troubleshooting, application support, access management, and hardware deployment. I handled 87 onboarding/offboarding-related tickets covering employee accounts, permissions, and equipment provisioning and collection, and developed a full CityWide REST API runbook through hands-on curl and PowerShell testing.

Alongside this operational IT experience, I've also built and operated full-stack production software as Co-Founder of BecomeAfish and InferenceSaver, giving me a well-rounded technical skill set that spans both hands-on IT support and software engineering.

I would welcome the opportunity to discuss how my background can contribute to your IS team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
