Hiring Team
Export Development Canada
Calgary, AB

Re: Student / New Grad Positions - Technology and Analytics (Winter 2027)

Dear Hiring Team,

I am writing to apply for the Student / New Grad Positions - Technology and Analytics (Winter 2027) position at Export Development Canada. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to apply technology skills in support of Canada's trade and export ecosystem.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets spanning systems support, access management, and hardware, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing, direct experience with enterprise technology operations.

As Co-Founder of InferenceSaver and BecomeAfish, I've built and operated production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users and BecomeAfish processing CAD \$5K in its first two months, giving me hands-on experience with both technology delivery and the analytics behind a live product.

I would welcome the opportunity to discuss how my technology and analytics experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
