Re: Student Software Developer - Spring 2027

Dear Hiring Team,

I am writing to apply for the Student Software Developer - Spring 2027 position at AbaData. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build software supporting real energy-sector operations at a growing company.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated full-stack production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users and BecomeAfish processing CAD \$5K in its first two months.

I would welcome the opportunity to discuss how my software development experience could contribute to your team this Spring 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
