Hiring Team
Activision (Summer Game Engineering)
Vancouver, BC

Re: 2027 Summer Internships - Game Engineering

Dear Hiring Team,

I am writing to apply for the 2027 Summer Internships - Game Engineering position at Activision in Vancouver. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build engineering systems behind games played by millions.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated full-stack production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users, including diagnosing and fixing a Stripe webhook idempotency defect affecting live transactions.

My internship with the City of Merritt further developed my systems fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my software engineering experience could contribute to your team this Summer 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
