ARC Resources Ltd. (Data Services)
Calgary, AB

Re: Data Services Co-op Student

Dear Hiring Team,

I am writing to apply for the Data Services Co-op Student position at ARC Resources. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to work with data systems that support real energy-sector operations.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets spanning data, access management, and systems support, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of InferenceSaver and BecomeAfish, I've built and operated production platforms with real backend data infrastructure, processing \$5.6K+ and CAD \$5K respectively across their first months live.

I would welcome the opportunity to discuss how my data and systems experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
