Hiring Team
RBC (AI & Stress Testing Analytics)
Toronto, ON

Re: 2027 Winter - GRM, AI & Stress Testing Analytics Intern (4 Months)

Dear Hiring Team,

I am writing to apply for the 2027 Winter - GRM, AI & Stress Testing Analytics Intern (4 Months) position at RBC. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to applying AI skills in a risk-critical, high-stakes environment.

As Co-Founder of InferenceSaver, I've operated a live AI platform processing \$5.6K+ across 129 users, including diagnosing and fixing a Stripe webhook idempotency defect, the kind of correctness discipline that matters in stress-testing analytics.

As Systems Analyst Intern with the City of Merritt, I built a full CityWide REST API runbook through hands-on curl and PowerShell testing, and managed 163 IT tickets spanning data and systems support.

I would welcome the opportunity to discuss how my data and AI experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
