Hiring Team  
RBC (Quantitative Risk)  
Toronto, ON

## **Re: 2027 Winter - GRM, Quantitative Risk Intern (4 Months)**

Dear Hiring Team,

I am writing to apply for the 2027 Winter - GRM, Quantitative Risk Intern (4 Months) position at RBC. As a third-year Computing Science co-op student at Thompson Rivers University, I bring a methodical, systems-level approach that translates well to quantitative risk work.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets and built a full REST API runbook through hands-on testing, developing a careful, detail-oriented approach to enterprise systems.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production platforms where correctness has real financial consequences, including diagnosing and fixing a Stripe webhook idempotency defect that had silently under-credited 8 of 14 checkouts.

I would welcome the opportunity to discuss how my analytical and systems experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

**Mandeep Singh**
