Re: Enterprise Applications Intern (May 2027 - April 2028 Work Term)

Dear Hiring Team,

I am writing to apply for the Enterprise Applications Intern (May 2027 - April 2028 Work Term) position at TAQA Group. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the longer work term as a chance to make a deeper contribution.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets spanning enterprise application support, access management, and hardware, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production software platforms end to end, giving me a well-rounded foundation across both enterprise IT support and software engineering.

I would welcome the opportunity to discuss how my enterprise applications experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
