Calgary, AB

Re: Software Engineering Intern

Dear Hiring Team,

I am writing to apply for the Software Engineering Intern position at TRC Companies. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build software supporting real environmental and infrastructure consulting work.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated full-stack production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users and BecomeAfish processing CAD \$5K in its first two months.

My internship with the City of Merritt further developed my systems fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my software engineering experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
