Hiring Team
Moment Energy
Surrey, BC

Re: Software Engineering Co-op (Winter 2027)

Dear Hiring Team,

I am writing to apply for the Software Engineering Co-op position at Moment Energy for Winter 2027. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build software supporting clean energy infrastructure here in BC.

At BecomeAfish, I built and launched a production booking and payments platform on Next.js, TypeScript, and PostgreSQL, supporting 108 registered accounts and 133 scheduled lessons, and automated eight operational workflows end to end including reconciliation and notifications.

As Systems Analyst Intern with the City of Merritt, I've managed 163 assigned IT tickets spanning troubleshooting, access management, and hardware, and built a full CityWide REST API runbook, direct experience supporting operational infrastructure.

I would welcome the opportunity to discuss how my hands-on full-stack and systems experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
