Summary

Third-year Computing Science co-op student with enterprise systems analysis, data-backed product development, API documentation, and stakeholder support experience. Seeking Teck's Data Governance Business Analyst Co-op to improve how enterprise data is managed and used.

Education

Thompson Rivers University Kamloops, BC

Bachelor of Computing Science (Co-op Program) *2023 – Present*

- Third-year student focused on software engineering, information systems, and computer networks
- Relevant coursework: Computer Networks, Operating Systems, Web-Based Information Systems

Experience

Systems Analyst Intern June 2026 – Present

City of Merritt *Merritt, BC*

- Managed **163 assigned IT tickets**, with **135 completed**, spanning Windows troubleshooting, application support, access management and hardware
- Handled **87 onboarding/offboarding-related tickets** covering employee accounts, permissions and equipment provisioning and collection

Co-Founder & Technical Lead March 2026 – Present

BecomeAfish *Next.js, TypeScript, PostgreSQL, Stripe*

- Built and launched a booking and payments platform supporting **108 registered accounts** and **133 scheduled lessons**, processing nearly **CAD $5K within 2 months** of commercial operation
- Engineered geographic instructor matching, role-based portals, and Stripe webhooks; automated **8 workflows** covering payroll batching, reconciliation, and notifications

Projects

Generic Alternatives GitHub | Live

Full-Stack Developer *TypeScript, React, Node.js, PostgreSQL*

- Built supplier-matching and procurement workflows backed by structured data processing
- Implemented background automation for ingestion, logistics tasks, and operational analysis

Log by ListeningKit Live

Full-Stack Developer *Next.js, TypeScript, Convex, Vercel*

- Built a real-time social-listening application that records keyword matches from Facebook, X, and Reddit
- Added AI-assisted intent scoring and notifications so high-value mentions surface quickly
