Re: IT Co-op - Cloud Platforms, Tools & Automation

Dear Hiring Team,

I am writing to apply for the IT Co-op - Cloud Platforms, Tools & Automation position at ATCO. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build cloud and automation tooling supporting critical infrastructure.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets spanning systems and automation, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've operated real cloud infrastructure (Vercel, Docker, CI/CD, scheduled jobs) for production platforms handling real usage.

I would welcome the opportunity to discuss how my cloud and automation experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
