Hiring Team
BDO Canada LLP (DevOps Engineer)
Toronto, ON

Re: Co-op or Intern, DevOps Engineer (January 2027)

Dear Hiring Team,

I am writing to apply for the Co-op or Intern, DevOps Engineer position at BDO Canada LLP. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to apply DevOps practices in a professional services environment.

As Systems Analyst Intern with the City of Merritt, I built a full CityWide REST API runbook through hands-on curl and PowerShell testing, and managed 163 IT tickets spanning systems support and deployment.

As Co-Founder of InferenceSaver and BecomeAfish, I've operated real cloud infrastructure (Vercel, Docker, Git, CI/CD, scheduled jobs) for production platforms, including diagnosing and fixing a Stripe webhook idempotency defect.

I would welcome the opportunity to discuss how my DevOps and infrastructure experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
