Re: Intern - Retail Lending AI Engineer, Winter 2027

Dear Hiring Team,

I am writing to apply for the Intern - Retail Lending AI Engineer, Winter 2027 position at EQ Bank. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to applying AI in a fintech environment with real financial consequences.

As Co-Founder of InferenceSaver, I've built and operated an AI API gateway and multimodal generation platform serving 129 registered users and processing \$5.6K+, including model integration and diagnosing a subtle Stripe webhook idempotency defect that had silently under-credited 8 of 14 checkouts.

As Co-Founder of BecomeAfish, I've also shipped a second production platform processing real payments, giving me direct experience with correctness under financial stakes.

I would welcome the opportunity to discuss how my applied AI and fintech-adjacent experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
