Re: January 2027 Desktop Support Co-op

Dear Hiring Team,

I am writing to apply for the January 2027 Desktop Support Co-op position at Elk Valley Resources. As a third-year Computing Science co-op student at Thompson Rivers University, I bring direct, hands-on experience supporting a real organization's IT needs.

As Systems Analyst Intern with the City of Merritt, I managed 163 assigned IT tickets, with 135 completed, spanning Windows troubleshooting, application support, access management, and hardware. I handled 87 onboarding/offboarding-related tickets covering employee accounts, permissions, and equipment provisioning and collection.

Alongside this operational IT experience, I've also built and operated full-stack production software as Co-Founder of BecomeAfish and InferenceSaver, giving me a well-rounded technical skill set.

I would welcome the opportunity to discuss how my desktop support and IT background could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
