Hiring Team

General Dynamics Mission Systems–Canada (Mobile Domain System Engineering)

Ottawa, ON

Re: Mobile Domain System Engineering - Co-op Winter 2027

Dear Hiring Team,

I am writing to apply for the Mobile Domain System Engineering - Co-op Winter 2027 position at General Dynamics Mission Systems-Canada. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the longer term as a chance to make a deeper contribution to mission-critical systems.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets and built a full REST API runbook through hands-on testing, developing a careful, systems-level approach to enterprise infrastructure.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production software where correctness had real consequences, including diagnosing and fixing a Stripe webhook idempotency defect affecting live transactions.

I would welcome the opportunity to discuss how my systems background could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
