Hiring Team
MDA Space (Cyber Security Analyst)
Brampton, ON

Re: Student, Cyber Security Analyst - Winter 2027 - Hybrid

Dear Hiring Team,

I am writing to apply for the Student, Cyber Security Analyst - Winter 2027 - Hybrid position at MDA Space. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to contribute to security at a company building critical space technology.

As Systems Analyst Intern with the City of Merritt, I handled 87 onboarding/offboarding tickets covering employee accounts, permissions, and identity/access management, alongside 163 total IT tickets spanning systems and hardware.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production software with real authentication and access-control systems (OAuth, RBAC, Session Authentication), including diagnosing a Stripe webhook idempotency defect.

I would welcome the opportunity to discuss how my access-management and systems experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
