Hiring Team
MDA Space (Various Positions)
Brampton, ON

Re: Various Co-op Positions and Locations

Dear Hiring Team,

I am writing to apply for co-op opportunities at MDA Space. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the range of technology roles supporting Canada's space technology sector.

As Co-Founder of InferenceSaver, I've built and operated an AI API gateway and multimodal generation platform serving 129 registered users and processing \$5.6K+, including model integration and diagnosing a Stripe webhook idempotency defect.

My internship with the City of Merritt further developed my systems fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my background could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
