Re: Junior Developer - Winter 2027 Co-op

Dear Hiring Team,

I am writing to apply for the Junior Developer - Winter 2027 Co-op position at Nexus Energy. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to build software supporting real energy-sector operations.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated full-stack production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users and BecomeAfish processing CAD \$5K in its first two months.

My internship with the City of Merritt further developed my systems fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my development experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
