Hiring Team
Nokia (Incubation Developer Student)
Ottawa, ON

Re: Incubation Developer Student (Hybrid - Ottawa)

Dear Hiring Team,

I am writing to apply for the Incubation Developer Student position at Nokia. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to incubation-stage work, having built two products from zero to live users myself.

As Co-Founder of InferenceSaver, I've built and operated an AI API gateway and multimodal generation platform serving 129 registered users and processing \$5.6K+, including model integration and diagnosing a Stripe webhook idempotency defect.

As Co-Founder of BecomeAfish, I've also shipped a second production platform from scratch, processing CAD \$5K in its first two months, giving me direct experience with early-stage product development.

I would welcome the opportunity to discuss how my early-stage product experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
