Hiring Team
Reliable Controls (Software QA Analyst)
Victoria, BC

Re: Software QA Analyst Co-op

Dear Hiring Team,

I am writing to apply for the Software QA Analyst Co-op position at Reliable Controls. As a third-year Computing Science co-op student at Thompson Rivers University, I bring a methodical, detail-oriented approach that translates well to software quality assurance.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets, with 135 completed, developing a careful, systematic approach to technical troubleshooting and testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production software where correctness under real usage was non-negotiable, including diagnosing and fixing a Stripe webhook idempotency defect that had silently under-credited 8 of 14 checkouts.

I would welcome the opportunity to discuss how my QA and systems experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
