Hiring Team
SAP (Agile Developer, Business Data Cloud)
Vancouver, BC

Re: SAP iXp Intern - Agile Developer, Business Data Cloud

Dear Hiring Team,

I am writing to apply for the SAP iXp Intern - Agile Developer, Business Data Cloud position in Vancouver. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to SAP's global iXp program and the chance to work on data platforms at enterprise scale.

As Co-Founder of InferenceSaver and BecomeAfish, I've shipped two production platforms end to end, running genuine agile cycles of iteration and release, InferenceSaver processing \$5.6K+ across 129 users. I personally diagnosed and fixed a Stripe webhook idempotency defect that had silently under-credited 8 of 14 checkouts.

My internship with the City of Merritt further developed my systems fundamentals, including a full REST API runbook built through hands-on curl and PowerShell testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my agile development experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
