Hiring Team
SAP (HANA and Analytics)
Vancouver, BC

Re: SAP iXp Intern - HANA and Analytics, Agile Developer

Dear Hiring Team,

I am writing to apply for the SAP iXp Intern - HANA and Analytics, Agile Developer position in Vancouver. As a third-year Computing Science co-op student at Thompson Rivers University, I'm drawn to the chance to work on data platforms and analytics at SAP's scale.

As Co-Founder of InferenceSaver, I've built and operated backend data and API infrastructure for a live platform processing \$5.6K+ across 129 users, including diagnosing and fixing a Stripe webhook idempotency defect.

My internship with the City of Merritt further developed my data-systems fundamentals, including a full REST API runbook built through hands-on curl and PowerShell testing and managing 163 IT tickets involving data and access systems.

I would welcome the opportunity to discuss how my data and backend experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
