Hiring Team
SAP (Technical Project Coordinator)
Vancouver, BC

Re: SAP iXp Intern - Technical Project Coordinator

Dear Hiring Team,

I am writing to apply for the SAP iXp Intern - Technical Project Coordinator position in Vancouver. As a third-year Computing Science co-op student at Thompson Rivers University, I bring both technical grounding and real coordination experience to this role.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets end to end, coordinating across systems, access management, and hardware, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've taken two products from concept to live users, meaning I understand technical projects from both the coordination side and the hands-on engineering side.

I would welcome the opportunity to discuss how my coordination and technical experience could contribute to your team.

Thank you for considering my application.

Sincerely,

Mandeep Singh
