Hiring Team
Sun Life (Data Governance Analyst)
Toronto, ON

Re: Student, Data Governance Analyst (Winter 2027)

Dear Hiring Team,

I am writing to apply for the Student, Data Governance Analyst (Winter 2027) position at Sun Life. As a third-year Computing Science co-op student at Thompson Rivers University, I bring a careful, detail-oriented approach that translates well to data governance work.

As Systems Analyst Intern with the City of Merritt, I managed 163 IT tickets spanning access management and identity systems, and built a full CityWide REST API runbook through hands-on curl and PowerShell testing.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated production platforms where data correctness had real consequences, including diagnosing and fixing a Stripe webhook idempotency defect that had silently under-credited 8 of 14 checkouts.

I would welcome the opportunity to discuss how my data governance and systems experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

Mandeep Singh
