Hiring Team  
Sun Life (Software Engineer)  
Toronto, ON

## **Re: Student, Software Engineer (Winter 2027)**

Dear Hiring Team,

I am writing to apply for the Student, Software Engineer (Winter 2027) position at Sun Life. As a third-year Computing Science co-op student at Thompson Rivers University, I'm excited by the chance to build software that supports real financial decisions.

As Co-Founder of BecomeAfish and InferenceSaver, I've built and operated full-stack production platforms end to end, InferenceSaver processing \$5.6K+ across 129 users and BecomeAfish processing CAD \$5K in its first two months.

My internship with the City of Merritt further developed my enterprise IT fundamentals, including a full REST API runbook built through hands-on testing and managing 163 IT tickets.

I would welcome the opportunity to discuss how my software engineering experience could contribute to your team this Winter 2027 term.

Thank you for considering my application.

Sincerely,

**Mandeep Singh**
